

# JEFFREY KENNEDY

1871 G ST. Apt 18

(707) 616-6669

[jkennedy@humboldt.edu](mailto:jkennedy@humboldt.edu)

[Jmk1067.github.io](https://Jmk1067.github.io)

Geographic information systems analyst and programmer focused on discovering innovative yet detail oriented solutions.

## RELEVANT EXPERIENCE

**Instructional Student Assistant** - February - May 2020

**Humboldt State University**

Remotely tutored students in programming and GIS. Collaborated with teachers and students to answer questions and provided individually tailored guidance when stuck.

**GIS Intern** - August - December 2018

**Humboldt County Planning Department**

Analyzed historical parcel maps and identified changes over time. Worked with, and updated a large geospatial database. Used aerial imagery for building identification to aid county firefighting efforts.

## SELECTED PROJECTS

**The Search for Sac Balam** - Fall - 2019

Worked with anthropologists to turn old Spanish descriptions into a heat map of probable locations for a lost Mayan City.

**California Wildfire Correlations** - Spring - 2019

Created python code which finds correlations between human caused wildfires and activity locations in an effort to aid prevention and education.

**Erosion Assessment** - Fall - 2018

Combined drone imagery, slope length calculations, and other natural factors, to create a detailed look at erosion on a local dune system in Manila, California.

## EDUCATION

**Bachelor's of Science** - Humboldt State University

Environmental Science Degree, Geospatial Science Option

## WORK EXPERIENCE

**Cook** - May 2014 - Present

**Wildberries Marketplace**

Submitted and adjusted new recipes. Assisted with training of new cooks and kitchen assistants.

**Shift Supervisor** - August 2011 - March 2014

**Shoki Ramon House**

Lead team to meet high demands of a busy restaurant. Built strong guest relations, adhering to company brand. Relied upon to deal with and solve any customer or restaurant issues.
